

# <h1> Hola! I'm Chio 🙋‍♀️ </h1>

<p> Frontend Developer (React + TypeScript) with a focus on UX/UI <p>

<p> Frontend developer specialized in React and TypeScript, with a background in psychology and UX/UI design. I have built full web applications featuring authentication, API consumption, and state management, applying best practices in development and code organization. My previous experience in team management and client-facing roles allows me to understand real user needs and translate them into functional digital solutions.</p>

## SKILLS & TOOLS

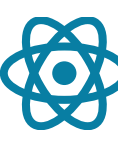

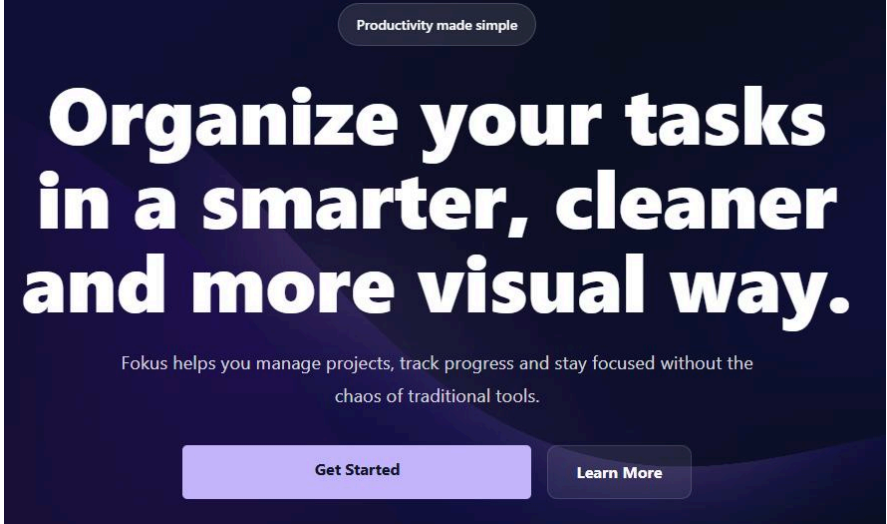

## PROJECTS

### Psychologist Website (Freelance)

Real responsive React website with contact form integration (email), routing, CTA sections, WhatsApp/Instagram links, and legal pages.

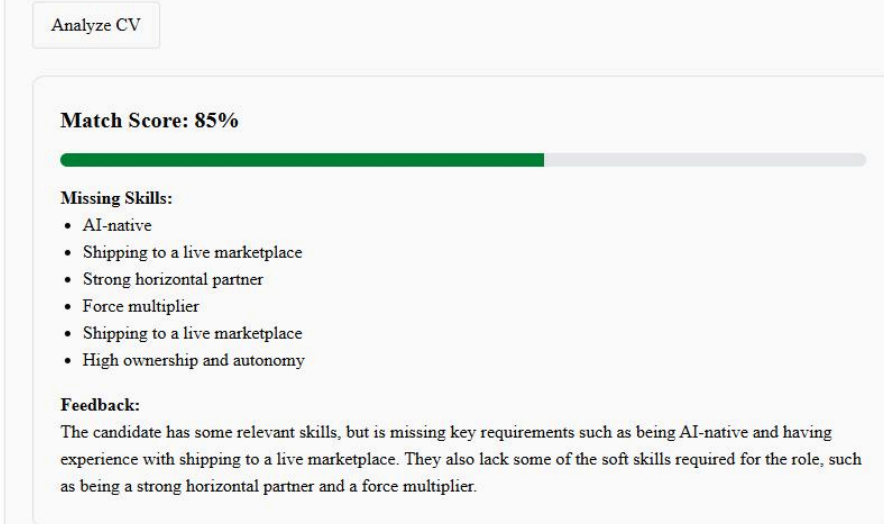

### SaaS Dashboard

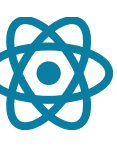

Built a SaaS-style web application, featuring a user portal with Firebase authentication, dynamic boards and task management, and full CRUD functionality.

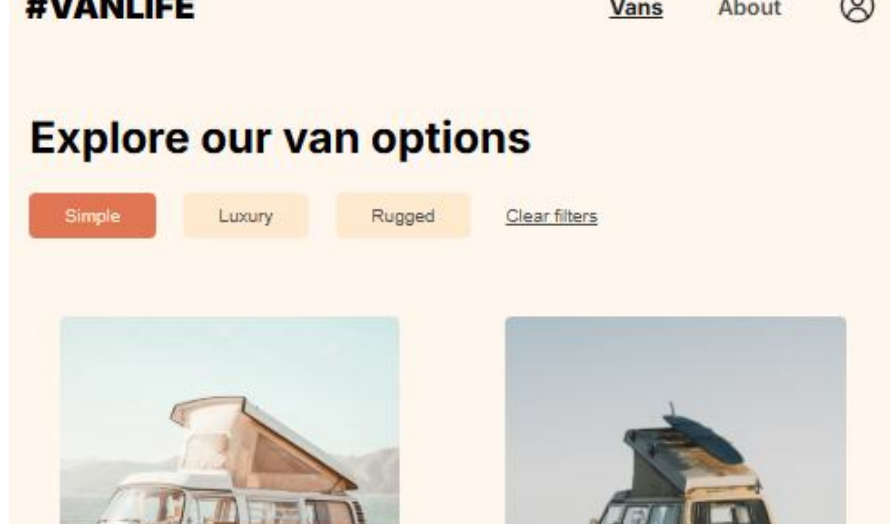

### AI CV Analyzer SaaS

AI-powered job matching platform that analyzes CVs against job descriptions using AI. Includes CV parsing (PDF/DOCX) and unit testing using Vitest.

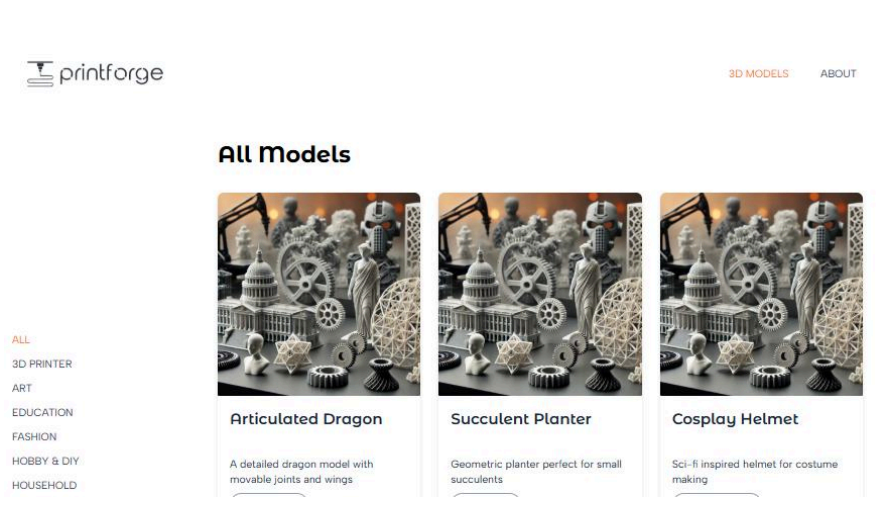

### User Platform

Implemented user authentication and registration using Firebase. Built a user dashboard with van management with data storage.

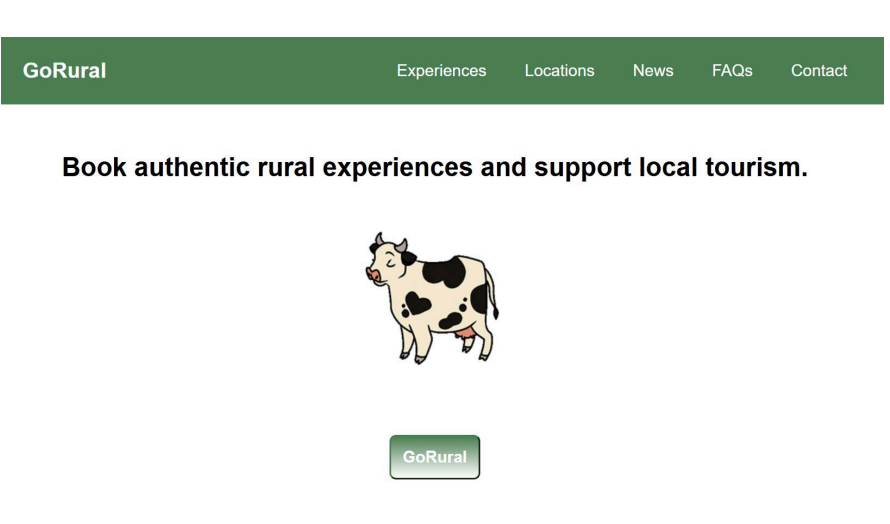

### 3D products Marketplace

Consumed external API to dynamically load content. Built a filtering and navigation system. Responsive interface using a component-based architecture.

### Activity booking page

Designed and developed the GoRural web experience using React, translating a Figma prototype into a fully functional website.

SCRIMBA

2026

### Frontend Development Course

UDEMY

2026

## EXPERIENCE

### Travel Coordinator - WEROAD

- Lead group management and serve as main point of contact before and during trips.
- Handle issues or emergencies to ensure a seamless travel experience.
- Organize and support promotional events and brand visibility actions.
- Coach new Travel Coordinators during their preparation and debrief process, especially for conflict-prone trips.
- Support peer learning by sharing best practices and facilitating growth among team members.

2022 - Present

 Around the world

 (Freelance / Seasonal)

### People & Operations Manager - FOX IN A BOX - BOMBASTIK!

- Coordinate directly with web developers to implement website improvements and UX-focused updates aligned with operational and marketing requirements.
- Create and customize marketing emails using HTML and CSS.
- Analyze sales data to develop marketing strategies and optimize digital campaigns, website performance, and social media channels, while planning and executing promotional events with full logistics and cross-functional coordination.
- Supervise a 30-person team: recruitment, training, scheduling, and performance.
- Manage client relationships, resolve customer complaints, and ensure quality experiences.
