

<h1> Hola! I'm Chio 🙋‍♀️ </h1>

<p> Frontend Developer (React + TypeScript) with a focus on UX/UI <p>

<p> Frontend developer specialized in React and TypeScript, with a background in psychology and UX/UI design. I have built full web applications featuring authentication, API consumption, and state management, applying best practices in development and code organization. My previous experience in team management and client-facing roles allows me to understand real user needs and translate them into functional digital solutions.</p>

SKILLS & TOOLS

PROJECTS

AI Copilot

Full-stack AI assistant for trip coordinators that features Telegram chat ingestion, source traceability badging, and automated contextual recommendations via AI.

TS React Vite Python

Psychologist Website (Freelance)

Real responsive React website with contact form integration (email), routing, CTA sections, WhatsApp/Instagram links, and legal pages.

TS React Vite

AI CV Analyzer SaaS

AI-powered job matching platform that analyzes CVs against job descriptions using AI. Includes CV parsing (PDF/DOCX) and unit testing using Vitest.

TS React Next.js Vite

SaaS Dashboard

Built a SaaS-style web application, featuring a user portal with Firebase authentication, dynamic boards and task management, and full CRUD functionality.

TS React Vite

Wind Farm Feasibility Portal

Full-stack analytics portal using AEMET OpenData. Features cache-aside SQLite persistence, dynamic CET/CEST timezone handling, and CSV dataset export.

TS React Vite Python

User Platform

Implemented user authentication and registration using Firebase. Built a user dashboard with van management with data storage.

JS React Vite

EXPERIENCE

Travel Coordinator - WEROAD

2022 - Present

- Lead group management and serve as main point of contact before and during trips.
- Handle issues or emergencies to ensure a seamless travel experience.
- Organize and support promotional events and brand visibility actions.
- Coach new Travel Coordinators during their preparation and debrief process, especially for conflict-prone trips.
- Support peer learning by sharing best practices and facilitating growth among team members.

People & Operations Manager - FOX IN A BOX - BOMBASTIK!

2015 - 2025

- Coordinate directly with web developers to implement website improvements and UX-focused updates aligned with operational and marketing requirements.
- Create and customize marketing emails using HTML and CSS.
- Analyze sales data to develop marketing strategies and optimize digital campaigns, website performance, and social media channels, while planning and executing promotional events with full logistics and cross-functional coordination.
- Supervise a 30-person team: recruitment, training, scheduling, and performance.
- Manage client relationships, resolve customer complaints, and ensure quality experiences.

Coexistence and Communication Workshops - FUNDACIÓN YEHUDI MENUHIN

2015 - 2016

- Delivered art-based workshops promoting coexistence and communication in schools.
- Designed educational sessions with defined goals and flexible structure.
- Prepared materials and managed logistics with institutions and collaborators.
- Adapted content to different age groups and classroom needs.

Exhibition Assistant - UNIVERSITY OF BRIGHTON

2013 - 2015

- Assisted during art exhibitions and events, guiding and welcoming visitors.
- Conducted feedback and satisfaction surveys.
- Helped produce an art magazine featuring exhibitions and event coverage.
